

Sales program 2010

Plant Consulting

Our technical staff provides you with a CAD service in implementing the automation of your factory. We work together with our customers in order to find the best solutions for your factory.

Process

BL100	Proportional venting: faster cycle times due to new process & valve technologies
DLC100	Control of your line, start, stop, centralized setting, production data monitoring, energy monitoring ...
DMS200	Data management system – gather all production data in a centralized Dbase. ERP integration, centralized recipes, process control, data logging, waist / rejects analysis, warehouse management ...

Quality control

QC050	Weighing, leak testing integrated, for containers 2-60L
QC060	Punching, orientation, weighing, leak testing integrated, for containers 60-220L
ODK100	Built-in leak tester, one head
ODK250	Built-in leak tester, one head, graphic interface
ODK310	Built-in leak tester, up to 4 heads
UDK100	Economic leak tester, one head
UDK200	Ergonomic leak tester
UDK250	Ergonomic leak tester, graphic interface
UDK310	Leak tester, max 4 independent heads, for accumulating bottles
UDK350	On the fly one head leak tester
UDK400	On the fly one/two head modular leak tester
UDK401	On the fly one/two/three head modular leak tester
UDK402	On the fly one/two/three/four head modular leak tester
UDK420	On the fly one/two head modular squeeze leak tester for aseptic bottles
UDK421	On the fly one/two/three head modular squeeze leak tester for aseptic bottles
UDK422	On the fly one/two/three/four head modular squeeze leak tester for aseptic bottles
UDK450	High-voltage leak tester
VT100	Drop test unit 1.2 x 1.2m

Finishing

DC100	Lost head trepanner <60-70mm
DC150	Lost head trepanner for larger products
DC170	Lost head neck to neck trepanner

Unscrambling

DEP200	Tray unscrambler
--------	------------------

Conveying systems

Flat belt conveyors	100/200/300/400/600/800/1000/1200/1400 wide
Flat belt vacuum conveyors	100/200/300/400/600/800/1000/1200/1400 wide
Chain conveyors	83/254 wide
Pallet conveyors	1250 wide / transfert cars / infeed systems/ rotating stations ...
Lift systems for bags	ELV110 (800 x 800mm) – ELV112 (1200 x 800mm)

Packaging

DSB100	Tumble pack unit
DSB200	Extended tumble pack unit
VZT110	Collation table w/o leak tester integration
VZT210	Tray packer 800 wide, buffer plate 1200, w/o leak tester integration
VZT211	Tray packer 1000 wide, buffer plate 1200, w/o leak tester integration
VZT212	Tray packer 1200 wide, buffer plate 1200, w/o leak tester integration
VZT220	Tray packer 800 wide, buffer plate 300, w/o leak tester integration
VZT221	Tray packer 1000 wide, buffer plate 300, w/o leak tester integration
VZT222	Tray packer 1200 wide, buffer plate 300, w/o leak tester integration
VZT230	Tray packer 800 wide, buffer conveyor long, w/o leak tester integration
VZT231	Tray packer 1000 wide, buffer conveyor long, w/o leak tester integration
VZT232	Tray packer 1200 wide, buffer conveyor long, w/o leak tester integration
VZT240	Tray packer 800 wide, buffer conveyor short, w/o leak tester integration
VZT241	Tray packer 1000 wide, buffer conveyor short, w/o leak tester integration
VZT242	Tray packer 1200 wide, buffer conveyor short, w/o leak tester integration
VZT300	Tray packer, twin, 800 wide, buffer plate 300 mm
VZT301	Tray packer, twin, 1000 wide, buffer plate 300 mm
VZT302	Tray packer twin, 1200 wide, buffer plate 300 mm
VZT400	Flexible Robot packaging cell
VZT500	Tray packer for packing bottles out of pockets
VZT512	High speed buffer
PLM100	Pallet lift system
DP050	Pallet stacker
DP060	Pallet rotater
DP200	Semi automatic, flexible palletiser
DP250	Fully automatic palletiser, trays up
DP300	Fully automatic palletiser for stackable containers
DP400	Bag stacker
DP500	Compact automatic palletiser for containers / bottles, trays up / down / flat
DP600	High speed automatic palletiser
DKP200	Tray erector machine
DB100	Bagging machine width adjustable from 400 - 650 mm, length adjustable from 200 – 600 mm
DB110	Bagging machine width adjustable from 600 - 800 mm, length adjustable from 200 – 700 mm
DB112	Bagging machine width adjustable from 800 - 1200 mm, length adjustable from 200 – 700 mm
DB122	Bagging machine width adjustable from 800 - 1200 mm, length adjustable from 200 – 1200 mm
DB132	High speed bagger width 1200 mm, length free adjustable to 1200 mm
DB142	Bagging machine width adjustable from 800 - 1200 mm, length adjustable from 400 – 1200 mm
WEL100	Oven, 1300 mm width – maximum transit height 400 mm
WEL110	Oven, 1600 mm width – maximum transit height 400 mm
WEL115	Oven, 1600 mm width – maximum transit height 600 mm

Various

ETN220	Take out systems for Kautex KEB machines
ETN210	Take out systems for Nissei DP & PF machines
ETN200	Take out systems for Aoki machines
DMD200	In line metal detector
ETK100	Neck label applicator
ETK300	Neck dust cap applicator for containers
ETK320	Container rotating station (after bottom blow)

Service

We have a fully equipped technical staff ready to provide you with the necessary support, we also provide 24h support, subject to contractual agreement.
